REPORT ON USE OF LED BULBS

Principal
S.S.G.M. College
Kopargaon

Use of LED Bulbs

The Higher Education Institute inclines to prefer latest modern technology in every possible area with every possible effort. To concentrate on the emission of electric power, it prefers to install LED -Light Emitting Diode- Bulbs. This practise helps the institute to maintain the campus with eye friendly lights wherever necessary besides it conserves electric energy. The institute is benefited with certain advantages by opting LED Bulbs where necessary. The advantages are like-

- i) More durability
- ii) More Efficiency
- iii) Energy saving and conserving the environment
- iv) Less expenditure on electricity
- v) No need of warm up before emission of light
- vi) No heat emission

Thus, all the corridors and conference hall, meeting rooms, Principal's cabin, administrative office, Library, hostels, study rooms, laboratories are decorated with LED Bulbs and their regular practices.
