**INTERNAL QUALITY ASSURANCE CELL**

**POLICY ON ENVIRONMENT AND ENERGY USAGE**

## **Institutional Policy on Environment and Energy Usage**

Shri Sadguru Gangageer Maharaj Science, Gautam Arts and Sanjivani Commerce College, Kopargaon have higher sensitivity and responsibility in maintaining the greener environment and limiting the usage of conventional energy sources. As per the policy of Internal Quality Assurance Cell, college works towards creating a clean, green, pollution-free and healthy environment with a dedication. We implement following practices towards establishment and maintenance of clean and green environment and adopt green energy sources.

1. A separate committee should be formed for campus beautification and environment conservation.
2. Non-teaching staff members must be assigned for the daily cleaning of all the class rooms and corridors.
3. The cleaning process must be monitored daily by office superintendent.
4. The laboratory attendants should keep the cleanliness in the laboratories allotted to them and the process must be monitored by respective head of department.
5. The library attendants should keep the cleanliness in library.
6. The library attendants should take care of every book in library.
7. The librarian must monitor the cleanliness and preservation of books.
8. The library advisory committee should take the review of cleanliness in library and maintenance of books.
9. The botanical garden and college campus should be maintained and kept clean, clear and green by the committee for campus beautification and department of botany.
10. The plants are green lungs of campus so care should be taken for proper growth of them.
11. The washrooms should be cleaned twice a day with the help of an external cleaning agency.
12. The timely maintenance of water purifying system should be done by expert agency appointed.
13. The cleanliness drives should be organized to inculcate the social responsibility among students.
14. The students from Earn and Learn Scheme should be utilized for maintaining cleanliness and greenery in campus.
15. All the teachers should sensitize the students about maintaining the cleanliness in campus.

16. The teaching, non-teaching staff and students must be encouraged to avoid the use of non-recyclable plastic in campus.
17. The rain water should be collected and used for recharging of all the bore wells.
18. Students and staff should be made aware about the proper usage of electricity.
19. The natural sunlight and air must be utilized in classrooms and corridors.
20. The number of solar street lights must be increased.
21. The number of LED bulbs must be increased.
22. Maximum use of four-to-five-star appliances for power saving
23. The kitchen waste from college canteen and hostel mess must be used for bio gas plant.
24. The solid waste management should be achieved with vermicomposting and use of biogas plant.
25. The chemistry practicals should be performed on micro scale. The green methods must be implemented wherever possible.
26. The waste water from the laboratories should be treated with the help of effluent treatment plant and reused for watering the plants.
27. All the teaching, non-teaching staff and students must be encouraged to use e-bikes, bicycles, common vehicles, public transport service to reduce the air pollution.
28. The college should follow No-vehicle day on first Monday of each month.
29. Conduct environment and energy audit on regular intervals
30. To promote students to do optimal use of energy and save energy wherever possible.
