## Action taken report on clean and green campus

As per the policy of Internal Quality Assurance Cell, college have taken the necessary actions towards creating a clean, green, pollution-free and healthy environment.

1. The committee for campus beautification and environment conservation works efficiently to maintain clear and green environment. It also works for sensitization of stakeholders for maintaining greener and limiting the use of conventional energy sources.
2. The campus cleaning is a daily practice and it is monitored by the respective people.
3. Tree plantation drives and cleanliness drives are organized on several occasions.
4. The new plants are planted and the responsibility of maintaining their growth is assigned.
5. The washroom cleaning agency is appointed and their work is monitored by concern staff appointed.
6. The maintenance of RO water purifying system and solar water purifying system is completed time to time.
7. The new and more efficient bio gas plant is installed.
8. The effluent treatment plant is installed for purification of laboratory waste water.
9. Chemistry practical are performed on micro scale and by adopting green methods to avoid the excess use of chemicals and to minimise the waste generation.
10. The sensor based solar street lights are installed on playground and on interior roads.
11. Two additional bore wells are recharged with rain water.
12. LED bulbs are installed in office and corridor.
13. The maximum utilization of natural light and air in corridors and classrooms helps to save electricity.
14. The staff and students are asked to switch off the electricity when not in use and everyone takes care about it.
15. Shredder machine is installed for conversion of plant waste in to biomass for use of vermiculture.
16. The power saving appliances are installed for power saving.

INTERNAL QUALITY ASSURANCE CELL

ACHIEVEMENT REPORT OF CLEAN AND GREEN  
CAMPUS

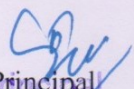

## Achievement report of clean and green campus

As per the policy of Internal Quality Assurance Cell, college have taken the necessary actions and achieved the desired goals to maintain clean, green and sustainable environment.

1. The neat and clean college campus provides healthy environment.
2. The green zone area is increased.
3. The botanical garden is well maintained.
4. All the plants in campus are tagged with their common names as well as scientific names.
5. The RO purified water is available at various places in campus.
6. The cleanliness drives helped to inculcate the social responsibility among students.
7. The solid waste management is achieved through vermicomposting and the vermin compost is used for plants.
8. The kitchen waste from hostel mess and canteen is used for preparation of biogas and it utilized for cooking.
9. The waste water from the laboratories is purified in effluent treatment plant and reused for watering the plants which helps to save the water.
10. By avoiding the use of non-recyclable plastic, the generation of plastic waste is minimized.
11. Two more bore wells are recharged with rain water. The water requirement of college is fulfilled so the water connection from Kopargaon Nagarpalika is disconnected.
